

Project Development Phase Sprint - 4

Date	15 November 2022
Team ID	PNT2022TMID45346
Project Name	Smart Waste Management System for Metropolitan Cities

INITIALISE NODE RED:

The screenshot shows the IBM Cloud console for the application 'Node RED KNWPM 2022-11-18'. The application is in a 'Running' state. The overview section displays the following information:

- Instances:** 1 instance is running with 100% health. The MB memory per instance is 256.
- Runtime cost:** Current and estimated cost is \$0.00.
- Connections:** 1 connection is shown, labeled 'node-red-knwpm-2022--cloudant-1668767697985-28155'.

The console also shows a notification that 'IBM Cloud Foundry Public is being deprecated. Please see full details.' and a 'Runtime' section showing a 256 MB allocation.

START NODE-RED:

The screenshot shows the Node-RED web interface on IBM Cloud. The interface displays the Node-RED logo and the following text:

Node-RED is a programming tool for wiring together hardware devices, APIs and online services in new and interesting ways.

This instance is running as an IBM Cloud application, giving it access to the wide range of services available on the platform.

More information about Node-RED, including documentation, can be found at nodered.org.

A button labeled 'Go to your Node-RED flow editor' is visible, along with a link to 'Learn how to customise Node-RED'.

CREATE UI FOR WEB:
